INDEX TO VOLUME II.

ABBOTT, A. W., Pre-operative thrombi in the region of the field of operation as a cause of post-operative complications and death, 287.

Abdomen, Technique of the longitudinal wire suture in the closure of, 82; hysterectomy, The technique of, for fibroids of the uterus, 312.

Abdominal, wall, Overlapping the aponeuroses in the closure of wounds of the, 228; Opening and closure of the, by lower mesial incision, 419; irrigator, Two-way, 567.

Addresses and other papers, review, 365.

AUBERT, L., Pelvic enlargement by hæbotomy, abs., 731

ALBRECHT, Clinical and pathological anatomy of hypernephroma, abs., 242.

Alexander operation, 704.

AMANN, J. A., Concerning growth and changes in submucous myoma, abs., 596.

American Journal of Urology, review, 365.

Amœbic dysentery, The relative value of cecostomy and appendostomy in the treatment of, by irrigation of the colon, abs., 593.

Anæsthesia, 227; Scopolamine-morphine-ethyl chloride-ether, 166; The use of magnesium sulphate in the production of, and in the treatment of tetanus, 541.

Anastomosis, A new method of lateral, 308; Arterial, by invagination, 410.

ANDREWS, E. WYLLYS A study of five cases of subcutaneous or concealed rupture of the intestines, treated by laparotomy, 608; Technique of the Andrews operation for hernia, 89.

ANDREWS, FRANK T., Calcification in gynecology, 42.

Aneurism, Two cases of, 174; The experimental production of, abs., 593.

Angioma, Report of a case of gluteal cavernous, 306.

Anomalous eclampsia, Case of discussion, 450.

Appendicitis, Technique in operating for, 229; work, End-results in, 229; Treatment, management, 344; purulent, Some considerations in the treatment of, 555.

Association, Southern Surgical and Gynecological, 209; Western Surgical and Gynecological, 332.

Axillary glands, Technique of removal of the breast and, 84.

BABCOCK, W. WAYNE, Cervical rib with resulting gangrene of fingers, abs., 113.

BACON, J. H., Procedure for opening the pericardium, abs., 354.

BACON, S. C., The maternal-impression superstition in America, ed., 319.

BACON'S, JOSEPH, dumb-bell intestinal anastomosis, 50.

BAER, WILLIAM S., Gonorrhœal exostosia of the os calcis, 168; Instruction in orthopædic surgery, 201.

BAISCH, KARL, The vaporization of the uterus, abs., 726.

BECK, CARL, On extensive separation of the periosteum in displaced bone fragments, 303.

BEBERGEIL, E., Lung complications after abdominal operations, abs., 721.

BELL, JOHN N., Correspondence, 482.

BEVAN, ARTHUR DEAN, Tuberculosis of the genitourinary tract, 194.

BIBROWICZ, W., Brain abscess, abs., 474.

Biliary, ducts, Non-lithogenous obstruction of, 380; passages, The technique of operations on the, 574.

Bladder, Inguinal hernia of the, report of a case, abs., 114; Extrophy of the, successfully treated by Peters's method, abs., 114.

BLAKE, JOSEPH A., The use of magnesium sulphate in the production of anæsthesia and in the treatment of tetanus, 541; The treatment of female hernia, 566; Two-way abdominal irrigator, 567; Gall-stone forceps, 569.

BLOODGOOD, JOSEPH C., Adenoma of the thyroid gland, 121; abs., 241; 243.

BOCHENSKI, K., Case of intrauterine acquired pneumonia, abs., 480.

Bowels, Starvation and locking the, for from ten days to two weeks, 179; Discussion of, 219.

BOYD, FLORENCE M., Primary carcinoma of the female urethra, abs., 477.

Brain abscess, Contribution to the clinical course and surgery of, abs., 474; Surgical treatment of diseases of the, abs., 474.

Breast, Technique of removal of the, and axillary glands, 84; Upon carcinoma and treatment of the, abs., 244; amputation, A new technique for, discussion, 336; Mixed tumors of the, abs., 594.

Breus subchorial hematoma, Histology of the, abs., 360.

BREWER, GEORGE EMERSON, Some observations upon acute unilateral septic infarcts of the kidney, 485.

BROUGHAM, E. J., Arterial anastomosis by invagination, 410.

BROWNLEE, JAMES, Germ-content of the uterus and vagina during the normal puerperium, abs., 362.

Burns, Experimental contributions to the etiology of primary death from, abs., 353.

Cæsarean section, Report of a, with questionable indication, 70; versus perforation, 74; because of dystocia due to abnormalities of the soft parts, abs., 117; vaginal, Two cases of, for eclampsia, with recovery of both patients, 231; necessitated by obstruction of the pelvis by the right half of the bicornate uterus, 231; for dystocia, due to intravesical fixation, 223; Post-mortem, case of — Living child, 324, 352; for ankylosis of both hip-joints, following tubercular coxitis, complicated by mitral insufficiency and post-partum eclampsia, abs., 363; Abdominal, 448; Vaginal, 449.

Calcification in gynecology, 42.

Calcified corpus luteum, 106.

Calculus, Ureteral, with a report of five cases, 369.

Cancer, of the uterus, Has experience sustained the more radical operations? 146; of the stomach, The operative cure of, 192; of the head and neck, The surgical treatment of, 220; of the uterus, Present status of the surgical treatment of, ed., 318; of the breast, Can the results of, be improved? 349; The nature of, discussion, 460; On spontaneous cure of, 633; of the stomach, 723.

CANNON, WALTER B., Movements of the stomach and intestines in some surgical conditions, abs., 582; Recent advances in the physiology of the digestive organs bearing on medicine and surgery, abs., 724.

Carcinoma, of the breast, Upon statistics and treatment of, 244; of the descending colon, 289; discussion, 332; of the gastrointestinal tract, What are the prospects for making an early diagonosis of? abs., 351; Two cases of primary, of the female urethra, abs., 477; in early life, 678.

Carcinosis of the thoracic duct, Concerning, abs., 351.

CARRELL, ALEXIS, Uniterminal and biterminal venous transplantation, 266.

157001

Cerebral decompression, Upon the results of, 713.
Cervical rib, with resulting gangrene of fingers, abs., 113.
Cervix, Concerning obstetrical dilatation of the, 259.
Cholelithiasis, Common-duct; Its symptoms, complications and treatment, 1.
Cholecystectomy, Its indications and technique, 629.
Chorioepithelioma of the tube, A contribution to our knowledge of, abs., 356; 585.
Chylous cysts of the mesentery, 339.
Cirrhosis of the liver, Case of hemorrhage from the stomach due to, 463.
CLARK, JOHN G., Has experience sustained the more radical operations for cancer of the uterus? 146.
Clitoris, Epithelioma of the, 104.
CLOWES, H. A., and HARVEY R. GAYLORD, On spontaneous cure of cancer, 633.
College of Physicians of Philadelphia, 712; 462.
Colles fracture, A splint for the treatment of, 571.
Colon, descending, Carcinoma of the, 289.
Common duct, obstruction, 214; Rupture of, a new sign, also with an unusual sign, 215.
Congenital fœtal cysts of the neck, obstructing labor, abs., 359.
CONNELL, F. GREGORY, The free interval in meningeal hemorrhage, 249.
Cook County Hospital, Technique of surgical department of, 78; Obstetrical technique in the, 81.
Co-operation among the German universitities, ed., 583.
CORDIER, A. H., Non-lithogenous obstruction of biliary ducts, 380.
Correspondence, 368; 482.
COTTE, G., Intermittent hydrops of the gall bladder, abs., 725.
CRAGIN, EDWIN B., A further contribution to the subject of pyelitis in pregnancy and the puerperium, 551; The technique at the Sloane Maternity Hospital, 569.
Cranischisis, 321.
Cryoscopy, 193.
CUBBINS, WILLIAM R., Wounds in the ureter, an experimental study, 617.
CUMSTON, CHARLES GREENE, Vesical calculus in women, abs. 477.
CURL, HOLTON C., Relative value of cecostomy and appendostomy in treatment of amæbic dysentery, abs., 593.
Cystic duct, Gall-stones in the, 213.
Cystitis, Post-operative, in women; Its cause and prevention, with special reference to the form appearing after the radical abdominal operations for uterine cancer, 181; Exfoliative vesical calculi formed about a ligature, 468.
Cystocele, and uterine prolapse, Treatment of extensive, 659.
Cystoma ovarii multiloculare pseudomucinosum, perforating the bladder and rectum (by pressure atrophy) and creating fistulous openings into the ileum and sigmoid flexure, A case of, abs., 357.
DAVIS, EDWARD P., Treatment of placenta prævia, 18.
DAVISON, CHARLES, Treatment of fractures of the femur at the Cook County Hospital, 61; The technique of closure of wounds by removable continuous suture, 92.
DEAVER, JOHN B., Ureteral calculus, with a report of five cases, 369.
Decidual cast, discussion, 447.
Digestive organs, Recent advancement in the physiology of the, bearing on medicine and surgery, 724.
Dilatation, chronic, of the stomach, An operation for the cure of, 403.
Dislocation, Spontaneous, of the hip-joint, 613.
DITTRICK, HOWARD, Epithelioma of the vulva, abs., 356.
Diverticulum, Meckel's, with a report of a case of diverticulitis, hernia into the cord, and intussusception, 668.
DODERLEIN, A., Concerning hæbotomy, abs., 729.
DONALDSON, H. L., An operation for the cure of chronic dilatation of the stomach, 403.
Downes's electrothermic angiotribe, Experience with, in pelvic and abdominal surgery, 218.
Drainage of the pelvic cavity of the male, 340.
DUDLEY, E. C., A plastic operation for covering the exposed vulvar surfaces with skin after excision of extensive growths of the vulva, 695.
DÜHRSSEN, PROF., Concerning obstetrical dilatation of the cervix, 259.
Duodenum, Chronic ulcer of the stomach and first portion of the, with especial reference to surgical treatment, abs., 113; A case of perforation of, recovery, discussion, 464; and jejunum, Observations upon a form of death resulting from certain operations on the, 502.
DOUGLASS, BENJAMIN, Nasal sinus surgery, with operations on nose and throat, rev., 601.
DUVAL, PIERRE, Pancreatitis and gall-stones, abs., 475.
Dysmenorrhœa, Dilatation and curettement for; report of 95 cases, abs., 116.
Ear, The palpation of, as a means of accurate diagnosis in vertex presentations, 673.
Eclampsia, Report of an unusual case of, 471.
Ectopic decidua formation, 292; discussion, 329.
EDGAR, J. CLIFTON, Text-book of Obstetrics, rev., 366.
EGGERS, CARL, What becomes of Lembert stitches placed in the gut? 564.
EISENDRATH, DANIEL N., Tuberculosis of the cervical lymph-nodes, 37.
Elbow-joint, Fractures above the, 337.
ELLIOTT, CHARLES A., Gram stains of the stools; method applicable in diagnosis of carcinoma of the stomach, 605.
Embolism following abdominal section, 111.
Empyema, The technique of operation for, used in Van Hook's clinic, 310.
Endocervicitis, chronic, A new method of treatment with new instruments, 227.
Enterocele, Rare case of, 722.
Enteroptosis, Concerning, together with observations upon the intra-abdominal pressure, abs., 595.
Epithelioma of the vulva, 467; abs., 356.
Erythromelalgia, Nerve-stretching for the treatment of, 713.
Exostosis of the os calcis, Gonorrhœal, 168.
Extraction of the head after decapitation, The, abs., 360.
Femur, Treatment of fractures of the, at the Cook County Hospital, 61.
FERGUSON, ALEXANDER HUGH, Technique of median perineal prostatectomy, 414.
Fibroid tumors, Wandering of aberrant retroperitoneal, of uterine origin, 222.
Fibroids of the uterus, The technique of an abdominal hysterectomy for, 312.
FINDLEY, PALMER, Report of a Cæsarean section with questionable indication, 70; Intermittent hydrosalpinx, abs., 587.
FINNEY, JOHN M. T., Three years' experience with pyloroplasty, 163.
FISHER, BERNARD, Experimental production of aneurism, abs., 593.
Fistula, vesicovaginal, Notes on technique of operation for, discussion, 458.
Forceps, Indications for, at Cook County Hospital, 22; Gall-stone, 569; The technique of, 687.

Fractures, of the femur, Treatment of, at the Cook County Hospital, 61; Dislocation of condyles of the femur, 228; above the elbow-joint, 337; of the leg, A temporary splint for, 701; compound, of the skull, Investigations upon remote results in, 722.
FRANKL, Histology of the Breus subchorial hematoma, abs., 360.
FRANQUÉ, O. VON, Gigli's pubic section, abs., 730.
FREUND, H. W., Report of a case of ovarian pregnancy, abs., 598.
FRITSCH, HEINRICH, Management of placenta prævia, abs., 360.
Gall-bladder, operations, Technique of, 204; Gangrene of, 215; Intermittent hydrops of the, by obliteration of the cystic canal, 725.
Gall-stones, in the cystic duct, 213; Pancreatitis and, abs., 475; Forceps, 569.
Ganglion, Gasserian, Operation for removing, 8.
Gangrene of the gall-bladder, 215.
GARKISCH, A., Cæsarean section, abs., 117.
GARRÉ, C., Concerning the indications for conservative and operative treatment of joint tuberculosis, abs., 355.
Gastric dyspepsias, amenable to surgical treatment, 347.
Gastrointestinal tract, What are the prospects for making an early diagnosis of carcinoma of, 351.
Gastroenterostomy, The vicious circle after, 232; A plea for conservatism in, ed., 445; Peptic ulcer of the jejunum after, 724.
Gastrojejunostomy, Technique of, abs., 593.
Gastroptosis, A critical study of, with special reference to outlining the stomach, 712.
GAYLORD, HARVEY R., and H. A. CLOWES, On spontaneous cure of cancer, 633.
Genitourinary tract, Tuberculosis of the, 194.
GIBB, W. TRAVIS, Hydatid disease of the ovary, abs., 479.
Gigli's pubic section, 730.
GILLMORE, ROBERT, Operative technique in Wesley Hospital, 697.
Gluteal cavernous anigoma, Report of a case of, 306.
Goiter, with a report of 182 operations upon the thyroid, 224; Mortality of gynecological operations in cases of exophthalmic, abs., 479; Surgical treatment of, based upon 200 operations, abs., 592.
Gonococcus in the puerperium, The, with report of 17 cases, 151.
GOSSET, A., Peptic ulcer of the jejunum after gastroenterostomy, abs. 724.
Gram stains of the stools, 605.
GRANDIN, EGBERT H., The treatment of uterine retrodisplacements, 400.
GRANT, W. W., Carcinoma of the descending colon, 289.
GREEN, NATHAN W., The positive-pressure method of artificial respiration, 512.
